Senior Veterans Day Program

THE HONOR FLIGHT NETWORK

The Honor Flight Network is a national network comprised of independent Hubs working together in furtherance of the Honor Flight mission. In furtherance of this common goal, we have the opportunity to show our nation's veterans the appreciation and honor they deserve. Participation in an Honor Flight trip gives veterans the opportunity to share this momentous occasion with other comrades, to remember friends and comrades lost, and share their stories and experiences with other veterans. All honored veterans travel at no cost to the veteran. The Honor Flight Network is currently serving veterans from the WWII, Korean War, and Vietnam War eras. They also serve terminally ill veterans serving during any era.

Come pay tribute to U.S. Veterans. Guest speaker will be Dave Heyduck, Honor Flight Network. American Legion color guard, Daughters of the American Revolution (DAR), and Joe Renshaw will be here to be part of the program. There will be a free lunch provided for 100 veterans, guest are invited also.

Hosted by Bob Betts and local DAR.

Staying Healthy

We do many things to remain healthy. We exercise, pay attention to our diet, take our medications as directed, watch our weight, and get vaccinated. According to the Centers for Disease Control and Prevention, adults ages 65 and older should make sure they are up to date on these vaccines:

- COVID-19
- Flu (influenza)
- Pneumococcal vaccine
- Shingles vaccine (zoster)
- Tdap (tetanus, diphtheria, and whooping cough) or Td (tetanus and diphtheria)

Other vaccines might be recommended based on your age and health issues. It is important to have a conversation with your health care provider to learn about which vaccines are recommended. Adults aged 60 and older should talk to their provider about the Respiratory Syncytial Virus (RSV) vaccine.

Respiratory syncytial virus (RSV) is a common respiratory virus that usually causes mild, cold-like symptoms. Most people recover quickly but it can also be serious. Older adults, especially with health issues, are more likely to develop severe RSV requiring hospitalization.

There are presently two RSV vaccines for use in adults 60 and older in the United States, RVSPref3 (Arexvy) and RSVpref (Abrysvo). Both vaccines contain a part of the RSV virus. The vaccination is a single dose and will protect you for at least two winter seasons.

The RSV vaccine might be recommended if you are 60 or older and have a weakened immune system from illness or from medications. It is also recommended for patients with chronic medical conditions such as heart or lung disease or if you live in a nursing home.

Please know that decisions regarding vaccinations should be made with the input of your healthcare provider. If you have questions or concerns, you may also utilize resources at the Branch, Hillsdale, St. Joseph Community Health Agency. We are always willing to have a conversation regarding your choices for a health lifestyle.
